Lot 2 — 5 Lakes Ranch — 70 Heifers

Home raised with some purchased heifers put together for replacement quality, they are very quiet heifers that have been on a rotational grazing over the summer so are very easy to handle and very calm. Heifers have been on a full herd health program including Tasvax 8-way,Express 10 and long range in spring before going to grass. All heifers have had the first shot of scour bos and the early calving heifers will be getting the booster shot when preg tested before sale.
20 +/- Simmental influenced heifers have been bred to low birthweight red angus bulls (proven heifer bulls) for January 15 calving date and only exposed for 50 days.
50+/- red and black heifers have been bred to black and red angus low birthweight bulls (proven heifer bulls)to start calving march 18 with a 60 day calving window.
