# CORNER STONE GENETICS & TROY HILL ANGUS

Corner Stone Genetics and Troy Hill Angus would like to welcome you to inspect the 2024 bull sale offering and join us. These bulls have been fed on a high roughage diet to promote growth and fertility, and yet maintain body condition to allow them to go out and start breeding cows as soon as you turn them out into the pasture. Many of the top AI Bulls in the country are offered that promote breed leading calving ease, Growth, Performance, Fleshing ability, Milk, Carcass, and Maternal traits that have made the Angus breed the sought after breed of choice. ( SAV Cattlemaster 4873, SAV America 8018, SAV Early Arrival 0903, Deer Valley Growth Fund, Coneally Emerald, and many other AI sires represented) along with our herds calving ease herd sire leased to Sire Buyer Corner Stone Forecast 9023. Please plan to come evaluate our program and let us know your thoughts on where you believe our program stands in meeting our goals.

Sincerely,  
Dan and Randall.
